(1) Not available. (2) For comparison with the later censuses, deductions have been made as follows: 167 plots under 1 acre in 1901; 317 in 1911. In 1921, farms on Indian Reserves are not included in the Prairie Provinces. (3) "Full ownership" means that the operator holds the title to all the land which he operates. It does not necessarily mean that the farm is free of debt. (4) Estimate made in 1931. (5) Area includes only improved acreage of Indian Reserves. (6) Includes farm gardens and orchards, see page xx for "Explanation of Terms". (7) Includes area in nursery. (8) Enumerated on "Fruit and Vegetable" schedule. (9) Small fruits only. (10) In 1921, idle land was included with fallow. (11) In 1921, 1931 and 1941 figures include live stock and farm products elsewhere than on farms. (12) In 1901 and 1911 the item was "milk cows". (13) Cows and heifers 2 years old and over kept for milk production. (14) Includes automobiles. (15) Does not include farms operated by share tenants and by cash and share tenants. (16) Includes estimated value of rent paid in kind and on a share basis. (17) On buildings and land operated by the owner. (18) Limited to stock raised on farms reporting. (19) Includes value of stock sold alive or slaughtered elsewhere than on farms. (20) Does not include fur-bearing animals and pelts sold. (See Table 29.)

(1) Not available. (2) For comparison with the later censuses, deductions have been made as follows: 7 plots under 1 acre in 1901; 500 in 1911. In 1921, farms on Indian Reserves in the Prairie Provinces are not included. (3) "Full ownership" means that the operator holds the title to all the land which he operates. It does not necessarily mean that the farm is free of debt. (4) Estimate made in 1931. (5) Area includes only improved acreage of Indian Reserves. (6) Includes farm gardens and orchards, see page xx for "Explanation of Terms". (7) Includes area in nursery. (8) Enumerated as "Fruit and Vegetable". (9) Nursery only. (10) Small fruits only. (11) In 1921, idle land was included with fallow. (12) From 1901 to 1941 figures include live stock and farm products elsewhere than on farms. (13) In 1901 and 1911, the item was "milk cows". (14) Cows and heifers 2 years and over, kept for milk production. (15) Includes automobiles. (16) Does not include farms operated by share tenants and by cash and share tenants. (17) Includes estimated value of rent paid in kind and on a share basis. (18) On buildings and land operated by the owner. (19) Limited to stock raised on farms reporting. (20) Includes value of stock sold alive or slaughtered elsewhere than on farms. (21) Does not include fur-bearing animals and pets sold (see Table 29).

(1) Inconnu.

(2) Pour comparaison avec les derniers recensements, ont été éliminés: 7 lopins de moins de 1 acre en 1901; 500 en 1911. En 1921, les fermes sur les réserves indiennes dans les provinces des prairies ne sont pas comprises.

(3) "Propriété entière" signifie que l'exploitant possède le titre sur toute la terre qu'il exploite, ce qui ne veut pas dire que la ferme est exempte de dette. (4) Estimation faite en 1931. (5) Comprend seulement la superficie défrichée des réserves indiennes. (6) Comprend jardins de ferme et vergers, voir page xx pour "Explication des termes". (7) Comprend la superficie en pépinière. (8) Enumérés sur le questionnaire des "Fruits et légumes". (9) Pépinière seulement. (10) Petits fruits seulement. (11) En 1921, la terre en repos est comprise avec jachère. (12) Do 1901 à 1941, les totaux incluent les bestiaux et les produits de la ferme et ailleurs que sur les fermes. (13) En 1901 et 1911, l'item ne mentionnait que vaches laitières. (14) Vaches et génisses de 2 ans et plus, gardées principalement pour le lait. (15) Comprend automobiles. (16) Ne comprend pas les fermes exploitées par les locataires à parts, ou les locataires partie à parts et partie en argent. (17) Comprend la valeur estimative du loyer payé en espèces et sur une base de participation. (18) Sur les bâtiments et la terre exploitée par le propriétaire. (19) Limité aux bestiaux élevés sur les fermes faisant rapport. (20) Comprend la valeur des bestiaux vendus vivants ou abattus ailleurs que sur les fermes. (21) Ne comprend pas les animaux à fourrure et les pelleteries vendus (voir tableaux 28).

(1) The age breakdown of trees, on farms with less than 50 fruit trees, was not obtained in 1941, although the totals for each kind include trees on such farms. For purposes of comparison apple and crab-apple trees under 10 years of age; peach, pear, plum and cherry trees under 5 years of age, were considered "not of bearing age"—La classification recoupée des arbres par âge, sur les fermes ayant moins de 50 arbres fruitiers, n'a pas été obtenue en 1941, mais les totaux pour chaque espèce comprennent les arbres sur ces fermes. Pour fin de comparaison les pommiers et les pommetiers de moins de 10 ans; les pêchers, les poiriers, les pruniers et les cerisiers de moins de 5 ans, ont été considérés "trop jeunes pour rapporter".

(2) Includes crab-apple trees—Comprend pommetiers.

(1) Not available. (2) For comparison with the later censuses, deductions have been made as follows: 951 plots under 1 acre in 1891; 238 in 1901; and 1,509 in 1911. (3) "Full ownership" means that the operator holds the title to all the land which he operates. It does not necessarily mean that the farm is free of debt. (4) A correction of the 1901 figures. (5) Includes farm gardens and orchards, see page xx for "Explanation of Terms". (6) Includes area in gardens. (7) Includes area in nursery. (8) Enumerated on "Fruit and Vegetable" schedule. (9) Nursery only. (10) Small fruits only. (11) In 1921, idle land was included with fallow. (12) From 1881 to 1941, figures include live stock and farm products elsewhere than on farms. (13) From 1881 to 1911, the item was "milk cows". (14) Cows and heifers 2 years and over, kept for milk production. (15) Includes automobiles. (16) Does not include farms operated by share tenants and by cash and share tenants. (17) Includes estimated value of rent paid in kind and on a share basis. (18) On buildings and land operated by the owner. (19) Limited to stock raised on farms reporting. (20) Includes value of stock sold alive or slaughtered elsewhere than on farms. (21) Does not include fur-bearing animals and pets sold (see Table 29).

(1) Inconnu. (2) Pour comparaison avec les derniers recensements, ont été éliminés: 961 loges de moins de 1 acre en 1891; 238 en 1901 et 1,509 en 1911. (3) "Propriété entière" signifie que l'exploitant possède le titre sur toute la terre qu'il exploite, ce qui ne veut pas dire que la ferme est exempte de dette. (4) Une correction des totaux de 1931.

(5) Comprend jardins de ferme et vergers, voir page xx pour "Explication des termes". (6) Comprend la superficie en jardins. (7) Comprend la superficie en pépinière. (8) Enumerées sur le questionnaire des "Fruits et légumes". (9) Pépinière seulement. (10) Petits fruits seulement. (11) En 1921, la terre en repos est comprise avec jachère.

(12) De 1881 à 1941, les totaux incluent les bétails et les produits de la ferme et ailleurs que sur les fermes. (13) De 1881 à 1911, l'item ne mentionnait que vaches laitières. (14) Vaches et génisses de 2 ans et plus, gardées principalement pour le lait. (15) Comprend automobiles. (16) Ne comprend pas les fermes exploitées par les locataires à parts, ou les locataires partie à parts et partie en argent. (17) Comprend la valeur estimative du loyer payé en espèces et sur une base de participation. (18) Sur les bâtiments et la terre exploitée par le propriétaire. (19) Limité aux bétails élevés sur les fermes faisant rapport. (20) Comprend la valeur des bétails vendus vivants ou abattus ailleurs que sur les fermes. (21) Ne comprend pas les animaux à fourrure et les pelleteries vendus (voir tableau 29).

(22) Comprend la valeur des bétails vendus abattus ailleurs que sur les fermes. (23) Ne comprend pas les animaux à fourrure et les pelleteries vendus (voir tableau 29).

(1) The age breakdown of trees, on farms with less than 50 fruit trees, was not obtained in 1941, although the totals for each kind include trees on such farms. For purposes of comparison, apple and crab-apple trees under 10 years of age; peach, pear, plum and cherry trees under 5 years of age, were considered "not of bearing age"—La classification recueillie des arbres par âge, sur les fermes ayant moins de 50 arbres fruitiers, n'a pas été obtenue en 1941, mais les totaux pour chaque espèce comprennent les arbres sur ces fermes. Pour fin de comparaison, les pommiers et les pommetiers de moins de 10 ans, les pêchers, les poitiers, les pruniers et les cersiers de moins de 5 ans, ont été considérés "trop jeunes pour rapporter".

(2) Includes crab-apple trees—Comprend pommetiers.

(3) Includes apricot and plum trees—Comprend abricotiers et pruniers.

Notice to the Enumerator.—THIS IS A CONFIDENTIAL REPORT and may be used only for the compilation of statistics. Any person employed in the execution of any duty under the Statistics Act, who divulges the contents of any schedule or who, through neglect or carelessness, causes any schedule or part of schedule to be seen by others, shall be liable to fine or imprisonment or both. (8 and 9 George V, C. 43, S. 35.)

1. All questions must be answered whenever applicable. If farm records are kept, take the information from them. If not, obtain the most accurate returns that circumstances will permit. Consult your Book of Instructions freely.

2. Farm Operator.—All replies on this schedule should relate to the farm, occupied on June 2, 1941, by the person named in Inquiry No. 1. The term "Operator" is employed

in the census to designate the person who is directly responsible for the agricultural operations, whether as owner, tenant, cropper or hired manager.

3. A Farm for Census purposes is all the land located in any one sub-district which is directly farmed by one person conducting agricultural operations either by his own labour or with the assistance of members of his household or of hired employees. It may consist of a single tract of land, or of a number of separate tracts, held under different tenures. In order to be reported as a farm such land must be of one acre or more in extent and have produced in 1940, agricultural products to the value of \$10 or more, or be under crops or employed for pasture in 1941.

Form 2A

CENSUS OF AGRICULTURE

(FRUITS AND VEGETABLES SCHEDULE)

DOMINION BUREAU OF STATISTICS

R. H. COATS, DOMINION STATISTICIAN

EIGHTH CENSUS OF CANADA, 1941

NOTICE TO THE ENUMERATOR.—This schedule is to be filled (a) for farms which produced for sale in 1940 either vegetables, vegetable seed, nursery products or small fruits to the value of \$50 or more and (b) for farms where there were 50 fruit trees or more in 1941. Special care must be taken to follow instructions as given on this schedule and in the Book of Instructions. On market gardens and in greenhouses several crops may be planted on the same ground; in this case the area must be counted as many times as there were crops. For example, a grower may have taken in 1940 five crops of radishes off one acre of ground; in this case the entry will be five acres. Similarly, if he plans planting five times in 1941, the entry under this heading should be five acres. In the case of interplanting or of vegetables grown between fruit trees, rather than giving the area, give in columns 2, 3, 8 and 9, the average length of rows and the number of rows. POTATOES AND TURNIPS are to be reported on Form 2. Remember that this report is absolutely confidential.

RECELEMENT DE L'AGRICULTURE

(Questionnaire sur les Fruits et Légumes)

BUREAU FÉDÉRAL DE LA STATISTIQUE

R. H. COATS, STATISTICIEN DU DOMINION

HUITIÈME RECELEMENT DU CANADA
1941

AVIS À L'ÉNUMÉRATEUR.—Ce questionnaire doit être rempli (a) pour les fermes qui ont produit, pour la vente en 1940, des légumes, semences de légumes, produits de pépinière ou petits fruits d'une valeur de \$50 ou plus et (b) pour les fermes qui comptent 50 arbres fruitiers ou plus en 1941. Les instructions données sur ce questionnaire et dans le Manuel d'Instructions doivent être suivies avec un soin particulier. Dans les cultures maraîchères ou les serres, plusieurs récoltes peuvent être enssemées dans la même terre; dans ce cas, la superficie doit être comptée autant de fois qu'il y a de récoltes. Par exemple, un cultivateur a pu prendre en 1940 cinq récoltes de radis sur une acre de terre; dans ce cas, cinq acres seront inscrites. De même, s'il projette de planter cinq fois en 1941, cinq acres devront être inscrites sous cet en-tête. Dans le cas des entre-semis ou des légumes cultivés entre les arbres fruitiers, plutôt que de donner la superficie, inscrite dans les colonnes 2, 3, 8 et 9 la longueur moyenne et le nombre de rangs. Les POMMES DE TERRE et les NAVETS doivent être déclarés sur la Formule 2. N'oubliez pas que ce rapport est absolument confidentiel.

Farms to be enumerated on this schedule are only those which, at some time in the past, have been employed, totally or in part, for the growing of crops and are abandoned or idle on June 2, 1941. An "abandoned farm" is one which has been unoccupied during the last several years, is in arrears for taxes, and has, to all appearances, been deserted by the owner. An "idle farm" is one which is unoccupied at the date of the Census, on which no crop was harvested in 1940, and which is not under crop of any kind in 1941.

If a farm which has been cropped at some time in the past and which has been abandoned by its occupier is now used for pasture by a neighbouring farmer, it must not be enumerated on this schedule, but on Form 2, as part of the farm of the operator who uses it, even if he pays no rent for it.

The information necessary to reply to inquiries on this schedule may be obtained from farmers living in the vicinity of the idle farm, from the local assessor, or from the secretary of the municipality.

INSTRUCTIONS FOR THE PROPER FILLING OF THIS SCHEDULE

Column 1. Date of enumeration. This question is self-explanatory.

Column 2. Number of this farm in regular order of visitation. The enumerators will number the abandoned or idle farms in the same way as the occupied farms in continuing order throughout the sub-district. For example, the first farm visited will be numbered "1". If the second farm visited is idle, the number entered in Column 2 will be "2". In this way all the farms in the sub-district, whether occupied or idle, will be numbered consecutively.

Columns 3 and 4. Name and address of present owner. In these two columns the enumerator will enter the name and address, if known, of the present owner, whether an individual, a loan or other company, the government or the municipality.

Columns 5, 5A, 5B, 5C, 6 and 7. Location of the farm. The enumerators in the Provinces of Manitoba, Saskatchewan, Alberta, and in other provinces wherever applicable, will be careful to mark the exact location of the abandoned or idle farms. As many lines will be used as there are sections or parts of separate sections in the farm. Elsewhere the location will be entered in Columns 6 and 7.

After making the entry on the schedule, the enumerator will locate the section or lot on the map supplied and mark each quarter section or each lot with the letter "A".

Column 9. Total area of this farm. The total area of each farm will be entered in Column 9.

Column 10. Area improved. In this column will be entered an estimate of the area of improved land in this farm, i.e., the area which has been brought under cultivation and which is fit for the plough on June 2, 1941.

Columns 11 and 12. Total value of farm and buildings. The values to be entered in these columns must be estimated in relation to the value of neighbouring occupied farms. Enumerators must guard against the entering of exaggerated values.

Columns 13, 14 and 15. Buildings on this farm and their condition. In these columns the enumerator will enter the number of houses, barns and sheds in their respective columns, together with their present state of repair. He will enter "G" for good, "F" for fair and "B" for bad. For example, if there is one house in good state of repair, the enumerator will enter "1G" in Column 13, etc.

Column 16. Is this farm suitable for resettlement? The answer in this column will be "Yes" or "No." The enumerator, in this instance, will consult with neighbouring farmers and give an honest opinion as to whether or not this farm, if properly worked, could support a farm family.

Columns 17 to 25. Reasons why this farm is not considered suitable for resettlement. The enumerator will mark "X" in the appropriate column or columns, if the farm is not considered suitable for resettlement. If the reason is a different one than those mentioned in Columns 17 to 24, then he will give, in one or two words, the reason in Column 25.

Les fermes qui doivent être énumérées d'après ce questionnaire sont celles seulement qui dans le passé, à un certain moment, furent affectées totalement ou partiellement aux cultures et qui sont maintenant abandonnées ou inexploitées le 2 juin, 1941. Une "ferme abandonnée" est une ferme inoccupée depuis plusieurs années, dont les taxes sont en souffrance et qui, selon toutes les apparences, a été abandonnée par son propriétaire. Une "ferme inexploitée" est une ferme inoccupée à la date du recensement, sur laquelle il n'y a pas eu de cultures en 1940 et qui n'est en culture d'aucune sorte en 1941.

Si une ferme qui a déjà été en culture et qui a été abandonnée par la suite par ses occupants est maintenant utilisée comme pâturage par un fermier du voisinage, elle ne doit pas être inscrite sur ce questionnaire, mais plutôt sur la formule 2, comme partie de la ferme de l'exploitant qui s'en sert, même si l'on ne paye aucun loyer.

Les renseignements demandés dans la réponse à ce questionnaire peuvent être obtenus des fermiers du voisinage de la ferme inexploitée, de l'évaluateur local ou du secrétaire de la municipalité.

INSTRUCTIONS POUR BIEN REMPLIR CE QUESTIONNAIRE

Colonne 1. Date de l'énumération. Cette question s'explique par elle-même.

Colonne 2. Numéro de cette ferme dans l'ordre régulier des visites. Les énumérateurs numérotent les fermes abandonnées ou inexploitées de la même manière que les fermes occupées par ordre de continuité d'un bout à l'autre du sous-district. Par exemple, la première ferme visitée portera le numéro "1". Si la deuxième est inexploitée elle sera inscrite dans la colonne 2 et portera le numéro "2". De cette façon toutes les fermes du sous-district, occupées ou inexploitées, seront numérotées consécutivement.

Colonnes 3 et 4. Nom et adresse du propriétaire actuel. L'énumérateur inscrira dans ces deux colonnes le nom et l'adresse, si connus, du propriétaire actuel, que ce soit un particulier, une compagnie de prêt ou autre, le gouvernement ou la municipalité.

Colonnes 5, 5A, 5B, 5C, 6 et 7. Localité de la ferme. Les énumérateurs du Manitoba, de la Saskatchewan et de l'Alberta, et des autres provinces où la chose est applicable, veilleront à indiquer la localité exacte des fermes abandonnées ou inexploitées. Ils utiliseront autant de lignes qu'il y a de section ou de parties de sections séparées dans la ferme. Ailleurs, la localité sera inscrite dans les colonnes 6 et 7.

Après avoir fait l'entrée sur le questionnaire, l'énumérateur indiquera sur la carte qui lui est fournie la localité de la section ou du lot et marquera de la lettre "A" chaque quart de section ou chaque lot.

Colonne 9. Superficie totale de cette ferme. La superficie totale de chaque ferme sera inscrite dans la colonne 9.

Colonne 10. Superficie défrichée. Dans cette colonne sera inscrite la superficie estimative de terre défrichée sur cette ferme, i.e., la superficie déjà cultivée et pouvant être labourée le 2 juin, 1941.

Colonnes 11 et 12. Valeur totale de la ferme et des bâtiments. Les valeurs devant être inscrites dans ces colonnes doivent être établies en fonction de la valeur des fermes occupées du voisinage. Les énumérateurs doivent se garder d'insérer des valeurs exagérées.

Colonnes 13, 14 et 15. Bâtiments sur cette ferme et leur état. Dans ces colonnes, l'énumérateur inscrira le nombre d'habitations, de granges et de remises dans leurs colonnes respectives, de même que leur état actuel. Il inscrira "G" pour bon, "F" pour passable et "B" pour mauvais. Par exemple, s'il y a une maison en bon état, l'énumérateur inscrira "1G" dans la colonne 13, etc.

Colonne 16. Cette ferme pourrait-elle être réexploitée? La réponse à cette question doit être "oui" ou "non". L'énumérateur, dans ce cas, consultera les fermiers voisins et fera franchement à cette ferme, bien administrée, peut ou non faire vivre une famille de fermier.

Colonnes 17 à 25. Raisons pour lesquelles cette ferme ne pourrait pas être réexploitée. L'énumérateur placera un "X" dans la ou les colonnes appropriées si la ferme n'est pas jugée susceptible de réexploitation. Si la raison diffère de celles mentionnées dans les colonnes 17 à 24, il l'indiquera en un ou deux mots dans la colonne 25.

FORM 3 This form is to be used for reporting agricultural products on plots of less than one acre and on other plots of one acre or more where the value of agricultural production was less than \$50 whether in rural or urban localities.

APPENDIX C

DESCRIPTIONS OF CENSUS DIVISIONS

For the purpose of compiling the census and to provide a means of presenting statistical data for permanent areas smaller than a province, the county municipalities were used in Eastern Canada rather than the electoral districts. In the four western provinces, there being no fixed political divisions corresponding to the counties of Eastern Canada, these provinces have been divided for statistical purposes into census divisions and subdivisions. These census divisions have been so laid out that as population increases, they may be subdivided without destroying the means of comparing the variations in population and agriculture disclosed by censuses.

The reason for using areas with fixed boundaries rather than electoral districts as a basis for the compilation of the census is that the electoral districts being liable to have their areas changed after each redistribution make it impossible to compare one census with another for areas smaller than a province.

The census divisions of the provinces are constituted as follows:—

ONTARIO.—In the province of Ontario, the divisions are the county municipalities. The rural parts are divided into townships and a certain number of unorganized areas. The urban parts are made up of cities, towns and villages.

APPENDICE C

DESCRIPTION DES DIVISIONS DE RECENSEMENT

Pour fins de compilation de recensement et comme moyen de présenter des données statistiques pour les régions permanentes moins considérables qu'une province, les municipalités des comtés ont été utilisées de préférence aux districts électoraux dans l'Est du Canada. Les quatre provinces de l'Ouest ne comprenant pas de divisions politiques fixes correspondant aux comtés de l'Est du Canada, ont été divisées au point de vue de la statistique en divisions et subdivisions de recensement. Ces divisions de recensement ont été établies de telle sorte qu'à mesure que la population augmente, elles peuvent être subdivisées sans pour cela détruire les moyens de comparer les changements tels que révélés par les recensements qui se sont opérés dans la population et dans l'agriculture.

La raison de l'emploi de régions à limites déterminées de préférence aux districts électoraux comme base de compilation de recensement, est que les districts électoraux sont susceptibles de remaniement après chaque redistribution et qu'il est impossible d'établir des comparaisons d'un recensement à l'autre pour des régions moins considérables qu'une province.

Les divisions de recensement des provinces sont constituées de la façon suivante:—

ONTARIO.—Dans la province d'Ontario les divisions sont les municipalités de comté. Les parties rurales sont divisées en townships et en un certain nombre de régions non organisées. Les parties urbaines comprennent les cités, villes et villages.
